Interest Revenue & Interest Expense

HIGHLIGHTS

- Net interest margin increased 14 basis points in the second quarter of 2022 to 3.06% due to rising rates positively impacting asset yields and managed deposit costs. Excluding the impact of accretion, the linked quarter net interest margin increased by 20 bp.
- Yields on net loans, loans held for sale, and leases excluding accretion, were up 16 bp to 4.12% for the second quarter of 2022 compared with 3.96% for the first quarter of 2022.
- The average cost of deposits remained well managed at 0.17% for the second quarter of 2022, compared with 0.15% for the first quarter of 2022.
- In 2Q22, yields on total interest earning assets were up 19 bp to 3.29% and total costs of interest-bearing liabilities were up 7 bp to 0.36%.
- Net interest revenue excluding accretion income related to acquired loans for 2Q22 increased \$19.0 million or 6.5% from the prior quarter. Net interest revenue included \$11.7 million in accretion income, adding approximately 11 bp to the net interest margin. This compares to net accretion income of \$17.7 million in the prior quarter, which added approximately 17 bp to 1Q22 net interest margin.
- The balance sheet is asset sensitive, with ~24% of loans floating (repricing within 30 days) and another ~44% of loans variable as of June 30, 2022. Net interest income in a +100 bp rate shock scenario modeled over a 12-month period increases 4.5%; and increases 8.6% in +200 bp.

2Q22 Noninterest Revenue Composition

HIGHLIGHTS

- Noninterest revenue was \$125.2 million compared with \$128.4 million in the linked quarter. The decrease was driven primarily by a lower positive mortgage servicing rights valuation than prior quarter, partially offset by strong insurance commission revenue and card and merchant fees. The increase in card and merchant fees included annual card vendor incentives and the impact of improved revenue share resulting from contract renegotiations.
- Insurance commission revenue growth of 12% in the quarter reflected continued strong performance with pricing remaining firm and high customer retention rates. In 2Q22, the Company completed the acquisition of Wall 2 Wall Benefit Services, a Houston, TX-based firm specializing in insurance and employee benefit services.
- Total assets under management was \$21 billion as of June 30, 2022, down from \$22 billion as of March 31, 2022 reflecting market volatility partially offset by organic growth.

Total Revenue, Adj. Expenses⁽¹⁾ & Adj. Efficiency Ratio⁽¹⁾

HIGHLIGHTS

- Adjusted noninterest expense of \$271.8 million, down from \$281.0 million for the first quarter of 2022. The decline included reductions in payroll taxes and 401k match from seasonally high 1Q22 levels, lower health insurance accruals based on lesser claims experience, and a year-to-date adjustment of amortization of intangibles as we finalized acquired intangible asset valuations.
- Merger and incremental merger expense was \$13.3 million for the second quarter of 2022, up \$2.8 million, comprised primarily of conversion, employee retention, compensation related items and marketing.
- The adjusted efficiency ratio was 60.5% for the second quarter of 2022, compared to 63.5% in the prior quarter.

⁽¹⁾ Considered a non-GAAP financial measure. See "Non-GAAP Reconciliation" in the appendix.

⁽²⁾ Merger expenses represent costs to complete the merger with no future benefit, while incremental merger related expenses represent costs to complete the merger for which the entity receives a future benefit.

Diversified Loan Portfolio

\$ in millions, unless otherwise indicated

HIGHLIGHTS

- Loans and leases, net of unearned income, continued to reflect solid growth, increasing \$1.2 billion in the second quarter of 2022 and \$1.5 billion year-to-date or 17.3% and 11.0% on an annualized basis, respectively. Loan growth for the quarter was strong and spread across multiple geographies in our diverse footprint, and across portfolios including commercial and industrial, commercial real estate, community banking and residential mortgage. The growth reflected an increase in new originations coupled with slower payoffs and paydowns in the quarter.
- Texas represents the largest geography with 40.7% of total loans as of June 30, 2022.
- Mortgage production (including both those retained on the balance sheet and those sold) increased during the quarter to \$913 million, up from both \$804 million in 1Q22 and \$906 million from the prior year 2Q.

Efficiency Ratio-Fully Taxable Equivalent and Adjusted Efficiency Ratio-Fully Taxable Equivalent Definitions

The efficiency ratio and the adjusted efficiency ratio are supplemental financial measures utilized in management's internal evaluation of the Company's use of resources and are not defined under GAAP. The efficiency ratio is calculated by dividing total noninterest expense by total revenue, which includes net interest income plus noninterest income plus the tax equivalent adjustment. The adjusted efficiency ratio excludes expense items otherwise disclosed as non-operating from total noninterest expense.
